EDITOR'S TABLE.

The heat is intolerable, the dust is suffocating, and news extremely scarce. The steamer from Montevideo arrived yesterday, but brought very little news of importance. Our colleague the 'Reforma' makes a very serious charge against some parties concerned in the late duel, and states that the seconds are about to fight a duel in consequence. We trust the statement is incorrect.

General Mitre was expected in town yesterday, and it was rumoured that some of the troops in the city were about to be sent up to-day in the Pavon to Rosario. In some parts of the camp recruiting is said to be going on. A gentleman arrived from the Uruguay states that the National Government is buying ten thousand horses in Entre Rios.

There is a pretty general conviction amongst foreigners that so long as the Argentine Government fails to keep on the best possible terms with its neighbors, these Indian invasions will continue. It is known for a positive fact that the cattle which the savages sweep from Buenos Ayres is driven to Chile and sold there at a most remunerative price.

Vessels from Montevideo meet with extraordinary delays at times: the 'Pablo' arrived yesterday after 8 days' voyage, and the Noord Holland, which left that port on the 16th is not yet in. Mr. Billingham will auction off, to-day, two quintas in Belgrano, the property of Dr. Leslie. As the Northern railway has lowered its fares we advise our friends to invest, if the houses go for a bargain.

To-day there will be a conference of the Circulo Literario, to hear a new play which is intended for representation. The day and hour are inconvenient, and we object to a recital of dramas, which is more proper for a theatre if worth anything at all. It must lose considerably by dry reading, and we have not the requisite patience to stand out the infliction.

We have received the Spanish paper 'La Cronica' (Aug. 9th) of New York, containing the obituary notice of the late Mr. F. A. King, and an advertisement of that gentleman that he has returned from Buenos Ayres and opened a lawyer's office in N. York, under the patronage of the Argentine Consul, Mr. N. D. Carlisle.

We hear that a great scarcity of hands is felt at present in the camp, and that if the Government does not do something, half of the wheat crop will be lost, as the reapers are extremely scarce.

The "Nacion" yesterday attempts to defend the Minister of War, and exculpate him from all blame. We fear our colleague has a lame case; the less said about the matter the better—the general feeling is that His Excellency should at once resign.

The Executors of Sr. Escribano have paid over two thousand dollars (£14) to the Orphan Asylum, and two thousand dollars to the Women's Hospital. A statistical broker informs us that a paper cigar is worth three yards of the best land in the province, at the rate say of one million paper dollars per league: thus an average smoker whiffs eight acres per annum of land in Buenos Ayres, and about a league and a half of land in some of the upper provinces.

Sr. Sarmiento, we learn, has not been authorized by the Argentine Government to sit in the South American Congress: he goes simply in his own private character as a South American. The Argentine Republic has not been invited to attend the Congress.

A very serious charge is made by one of our colleagues against the soldiers or turnkeys at the public prison, who, it is said, on the plea of searching the visitors, take the most indecent liberties with females. We unite with our colleagues, and demand that a stop be at once put to this.

Some 'cacique,' who has been receiving a very good salary from Government, has decamped from his old quarters in Bahia Blanca, for parts unknown. It is feared he has gone to join the invading Indians. The camps down in Bahia Blanca are in splendid condition. Some new wool arrived yesterday, but wools down there are generally of a coarse description.

Persons who take an interest in the paper dollar question, will be pleased to know that the total amount of the Cepeda and Pavon dollars in circulation is 84 millions: the original amount was 160 millions, of which the balance has been burnt.

The new School of Arts and Trades, about which we have heard so much, seems to be more for the education of lawyers or politicians than for the tuition of mechanics. We read a list of the classes and think that the Government ought to have the name of the school changed.

There is a deal of sickness at present in the city, and all who can afford it are leaving for the suburbs. A medical friend tells us that the tired meat such as is too frequently sold in the market, and dirty river water which is sold round town every day, are sufficient to produce pestilence and disease.

If the weather proves as sultry to-day as yesterday we fear the lineal descendant of 'Ireland's Glory' will find it rather hot on the race-course at Belgrano; however the bipeds will probably enjoy themselves with the aid of a comprehensive umbrella and a refresher.

The Provincial Chamber of Deputies is again without a quorum. We believe that the cause is the great heat and scandalous state of the streets: the deputies cannot find their way to the House of Legislature the dust is so great. We side with the deputies, and think they are perfectly right: the municipality collects some twenty millions per annum, what becomes of all the money? or is it possible that we cannot afford some half dozen watering carts?

Rain is very badly wanted for the camp in all quarters. From every point, we hear, the 'lagunas' and 'arroyos' are drying up. As the summer has set in so extremely hot, we think that the rain cannot be very far off.

Another frightful storm we read of in the Corrientes papers. It swept down houses, trees, etc., and caused awful damage. Several persons were killed and many more wounded.

We are glad to hear that some of our American friends have at last commenced buying wool in the Plazas. We congratulate our country friends on the event, as the Americans are good buyers.

The next English packet, we hear, will bring us a large number of English merchants, estancieros and residents, who have been sojourning for some months in Europe.

Sr. Dominguez's speech over the tomb of the lamented Mr. Peña was an honorable tribute of respect to departed worth. Sr. Peña was one of the few men who commanded respect from all parties.

The Gas Company, in consequence of the dispute with the Municipality, has been obliged to put meters at every lamp: we learn that 2,000 are being placed, at an expense of nearly eight thousand pounds sterling.

Mr. Edward Gomez, brother of Dr. Don Juan Carlos Gomez, has been named Chief of Police in Mercedes, B. O. It is rumored that the Government troops will attack and storm this town early in the week.

We can get no news from Montevideo, respecting the wool sales in that plaza. We hope some of our sympathetic Montevideoan readers will send us a few sales, so that people here can know what is going on down there in the produce line. We fling ourselves upon the generosity of our Oriental friends.

An English hotel, on a first-rate style, will shortly be opened in the Villa Luxan. We think it would pay well if properly managed, as several

people run out to the Villa Luxan now on a short excursion, but the Italian and Basque accommodations are objectionable.

The Rio del Plata brought the following specie yesterday—Maui & Co. \$50,000, Juan Bandera \$20,000, Messrs. Lumb & Co. £1,530, J. B. Reissig 25 doubloons.

NEWS FROM THE PROVINCES.

CORRIENTES.

The 'Progreso' dates to the 13th inst.

The Legislature has had some stormy sessions relative to the Maui and Lanuz contracts for redemption of paper money. Sor. Billingham charged the Committee with partiality in calling before Mr. Puente and others in favor of Lanuz, whereas they refused to examine Maui's agent (Mr. Ingouville) and rejected his proposal without discussion, although it had been formally sanctioned by Government. There was, however, a majority in favor of Lanuz, whose concession was accordingly passed on both readings.

A ferrible hurricane visited Paso de Los Libres on the 27th ult., (the day after that of Uruguayana), accompanied with monstrous hail. Most of the houses (over 40 in number) were knocked down, and the quintas destroyed, five persons were killed, and 14 wounded. It lasted five minutes, and the inhabitants expected an earthquake like that of Mendoza. Governor Lagratta, on learning the calamity sent a sum of £2,000 silver for relief of the sufferers.

On the 3rd inst. a shocking murder was committed at Sor. Insaurralde's quinta, Corrientes; the corpses of a woman and infant were found, the first being riddled with stabs, and the latter (only 10 days old) had its throat cut. The state of the bodies shewed that the crime had been committed four days before. The police are making enquiries, and a man has been arrested on suspicion.

The Governor has submitted to the Chamber Mr. Finlayson's petition for an additional guarantee of one-half per cent on the cost of the Eastern Argentine Railway. On the 8th inst., Sor. Segovia renounced the portfolio of Minister of the Province on the plea of ill-health, and received the thanks of Government: it is thought Sor. Camellino will be re-appointed to the vacant dignity.

A missionary establishment is about to be fixed among the Indians of the Gran Chaco, with a small chapel attended by the Franciscan friars.

Ex-President Derqui arrived in Corrientes from Montevideo, per Marques de Olinda, and Deputy Camellino per Esmeralda from Buenos Ayres.

The budget for the province, for 1865, ear, amounts to \$145,617, and the ways and means are estimated at \$113,500, leaving a deficit of \$27,117 (silver). The national subsidy is \$12,060 (silver) per annum.

A notorious murderer and brigand named José Sosa escaped from the city prison in broad daylight, on the 10th inst. He contrived to break open the bars of his cell and attacked one of the keepers with his knife, whereupon the latter fainted away. He then presented himself to the armed sentinels who were petrified with fear and allowed him to walk coolly out into the plaza. Here his brother Teleforo had a horse in readiness which José mounted and rode through the streets, basking himself for the camp. This assassin had before escaped from the prisons of Mercedes and San Roque. His brother is a similar character, having murdered among others a Paraguyan resident: he came to Corrientes with the avowed purpose of liberating José and yet the police took no measures to arrest him. The gaoler is said to be an accomplice, and the Chief of Police has resigned office. The Supreme Court of Justice now orders the arrest of both Sosas, but it is too late, and only a matter of form.

José Maria Montiel has been sentenced to four years' military service, with pay, for killing a man named Bargas, when the alcalde only requested the former to turn him out for making a noise. Two ruffians (under 17 years of age) named Monson and Sanchez, were found guilty of having murdered their master, an estanciero named Masera, in Mercedes, on the 22nd of Jan.

uary, 1863, and subsequently robbed the house: owing to their youth they could not be sentenced to death, and are accordingly condemned severally to 10 and 7 years of military service.

A party of young men went over to the Gran Chaco to visit the Cacique Leoncito on his invitation, but on their arrival they found the Indians terribly drunk, and the cacique pretending not to know them, they were treacherously attacked and had to use their fowling pieces in self-defence. Luckily gaining their boat without injury, they rowed back to Corrientes.

The passengers of the Esmeralda have presented a flattering address to Capt. Hunter. Heavy rains have fallen at Corrientes. Paper-money rules at 238\$ per doubloon, Cordoba silver at 20.

THE SAN JUAN GOLD-DIGGINGS.

Hip! Hip!! Hurrah!!!

We extract the following interesting letter from the 'Ferro carril' of the 10th inst.:

San Juan, Oct. 27th, 1864.

"The discovery of gold in Castaño is greatly increasing; several new diggings have just been reported, but not so rich as the first. The gold-fields will be a source of immense wealth, not having so many drawbacks as the silver-mines. We always knew there was gold here, but never thought it existed in such abundance.

"Gualilan was an old gold mine which used to yield over 1,000 hard dollars per annum, without counting Guachi, Chipta, Pescado and Cerro Blanco, which were also productive, but are now completely abandoned for want of hands.

"At Gualilan there are two mines, Pique and Puntilla, which everybody here knows to be exceedingly rich: they belonged to D. Victorino Ortega who died in banishment in Chile, and his sons have been unable to recover them from Government. Some of the pumps are out of order, but with \$6,000 the works might be set in full play. The mine is thirty leagues north-west from the city of San Juan in the direction of Iachal, and Major Rickard's works are fourteen leagues distant.

"Guachi is also very rich, but was abandoned during the wars with the Chacho: it was in full work when the ground fell in and no one has the courage to try it again. It is not far from Iachal, where there is a refining laboratory. It would cost \$8,000 to put in proper repair.

"The gold-washings are situated in a Cerro, the entrance to which is by a fissure full of sand which the poor people take and wash, extracting a great deal of gold. It is surprising how people bother their heads about silver-mines, when gold can be got in abundance."

ROSARIO.

We have the 'Cosmopolita,' 'Ferro-carril' and 'Rosario' to the 18th inst.

Bartolomé Montenegro has been sentenced to death for the murder of Mariano Creliano at Pavon, on Sept. 20th 1863. The criminal is a noted assassin, and surprised his victim unarmed, he stabbed him in the abdomen, carried off the corpse and accused one Corvalan of the murder.

Governor Echague of Sta. Fé, writes (14th inst.), to the Chief of Police at Rosario, informing him that Dr. Rawson had happily succeeded in arranging the difficulty about cession of lands to the Central Railway Company, the owners acquiescing.

A petition has been got up for the removal of Sr. Freyre, from the police magistracy, but the Governor will hardly heed it.

On Sunday 13th inst. Mue. Mollo and Co. gave a grand operatic performance at the theatre.

There is profound agitation about the Indians, and people clamor for the removal of the War minister Gelly-obes.

An arrangement of political factions is again spoken off through the mediation of Sor Fragneiro.

The petition has been signed requesting D. Patricio Cullen to resume the Government of the Province. A grand dinner is to be given to Deputy Oroño at San Lorenzo.

The editor of the 'Ferro-Carril' advises his colleague, Sr. Lavayse, that he will not fight such a "miserable assassin" as he is.

There are several projects, including that of D. Aaron Castellanos, to pave

30 blocks (2½ miles) of the city of Rosario, the cost being variously set down at \$1 to \$3 silver per square yard.

Wool is selling at Rosario—common, 13 to 15-ris., good class, 26 to 28 Bol. ris., and fine Mestiza, at \$4 Bol.

THE INTERIOR PROVINCES—RETIREMENT OF THE INDIANS.

The mails from the North arrived in Rosario on the 16th inst., with dates as follows: Junyú Oct. 23th, Salta Oct. 22nd, Santiago Oct. 30th, Tucuman 3rd, and Cordoba 11th inst.

Junyú and Tucuman are quiet. The Governor of Salta has published his address to the Legislature, and removed the prefect of Rivadavia colony who murdered the friars, but he thinks "too much importance was paid to the occurrence." In Santiago Governor Aguirre had ordered Napoleon Uriburu to be shot.

The Cordoba papers are full of accounts of the barbarities committed by the Indians in their late raid. At Frayle Muerto they sacked four troops of bullock-waggons and cut the throats of 12 peons in Sor Zarate's employment. The carried off all the horses and horned cattle for leagues around, and the booty is said to be of immense value. All the diligences stopped running until the news arrived that the Indians had retired: several corpses have been picked up at Frayle Muerto. Sor. Pereyra's troop of thirteen carts from Mendoza narrowly escaped destruction, being three times attacked by the savages in its journey of 47 days: 1st at Rio Cuarto, when a mile distant from Bravo's troop which was sacked, 2nd at Saladillo, when they formed into a square for better defence, 3rd at Monte Alfonso, when they passed the Indians in sight.

NEWS FROM BRAZIL.

The files of the 'Diario do Rio,' by last English packet, contain the following items, which we have gleaned and translated for our readers:

Their Imperial Highnesses the Count and Countess D'Eu, having spent ten days in retirement at Petropolis after their marriage, made their public re-appearance at the palace of San Cristoval, Rio, on the 25th. There was a grand banquet, and in the evening the whole city was brilliantly illuminated. On the following days they visited the charitable and public institutions, and on the 20th attended at the opera, where they were received in state, and an address was presented by Dr. Lionel Alencar, formerly Secretary of Legation in Buenos Ayres.

The eclipse of the sun on the 30th ult. is thus described:—First contact at 31 minutes and 50 seconds past 11. Separation at 8 minutes 1 second past 3.

Captain Drummond has been appointed Adjutant-Major for the province of Rio Janeiro.

The Emperor and Counts of En and Saxony assisted at a conference of the Industrial Association: Dom Pedro was elected perpetual president, and the Princes honorary presidents. Much attention is paid to industrial progress, and the Government has promoted extensive cotton plantations in San Paolo and Amazonas, providing the peasants with Sea-island and other kinds of seed, besides Macartney and Dobson jins.

A difficulty arose about H.B. Majesty's ship Alceste making artillery practise in the port of Maceyo, Captain Blake being ignorant of contrary regulations. The captain of the Port complained to the British vice-consul who communicated on the subject with Mr. Lennox Hunt, Consul at Pernambuco. The latter replied that he had nothing to do in the question, but assured the authorities that he knew Captain Blake could not have intended to hurt the most tender Brazilian susceptibilities, and that probably he would be more careful in future.

The affair of the Florida and Wassuchetts caused such indignation at Bahia that the Emperor removed the President of the province, and inspector of the Arsenal, nominating ex-commissioner Saraiwa instead of the former. The local papers accused the officials of complicity, but by a strange coincidence it appears the commanders of the 10 fortresses in the bay were all sexagenarians, who had retired from active service 30 years ago.

The merchants of Bahia petitioned the imperial bank of Brazil to direct

the branch establishment in their city to resume discounts, having suspended such operations since 1863, to the great injury of trade.

On the 29th ult. the Emperor gave a banquet in celebration of the (26th) birthday of his cousin King Louis of Portugal, and on the 1st inst. the Court went into 7 days' mourning for the demise of the Princess of Hohenzollern. His Majesty has conferred the grand-cross of the order of the Rose on Prince Gortchakoff, Russian minister of foreign affairs.

Mr. Wells failed to make his second ascent on the 25th ult. but took an American lady and some other persons up about 60 feet from the Guarda Velha, the balloon being fastened to the ground by a long rope.

The American war-steamer Iroquois arrived in Rio on the 1st inst. from Bordeaux with dates from Europe to Oct. 2nd.

The vessels which capsized in the gale of Oct. 10th have been put in the stocks for repairs, some badly injured.

One of the partners of Messrs. Viana and Co. cleared out with a large sum of money while the other partner was absent from town.

A photograph album, somewhat like M. Palliere's, is now published in Rio. The thermometer now averages (Nov. 5th) 73 in the shade, the hot weather not having yet set in. The mortality of the city averages 26 daily, or double that of Buenos Ayres, shewing the population to be about 300,000 souls. The daily consumption of beef averages 195 head of cattle, the meat selling from 3½d. to 8d. per lb., and the market regulations are strict, as we read of animals being rejected by the official doctor.

Slavery is not so mild as people think, for there are daily cases of negroes taken up for disobedience, and several suicides of slaves are reported monthly. Hen-stealing is frequently mentioned, and English sailors are arrested for drunkenness.

In Novo Petropolis the colonists are exposed to the Indians: a German named Juan Kliuk was shot through the breast and his house sacked by the marauders, the police shewing no activity in the affair. The other colonies are thriving wonderfully.

In the district of Santos a woman gave birth to a child with a moveable face like a mask which can be raised or let down. The infant cannot suck, but is fed with milk, the doctors thinking it cannot long survive.

In Maranhos a man named Garces killed his wife with a gunshot and has been arrested. Among other tales of blood we read of a man who had murdered several persons and when the police went to seize him he disarmed one of them and mortally wounded two before he was himself overcome and killed: the other two died immediately.

Dr. Mello prosecuted a merchant named Teixeira Neves for forgery and swindling, and Judge Whittaker condemned the latter, whereupon one of Teixeira's slaves waylaid the doctor and nearly killed him. Teixeira has fled, Mello is recovering, and the slave is in custody.

The Brazilian papers are full of recitals of the most atrocious murders and robberies committed by the Montevideoan authorities on Brazilian estancieros resident in the republic: most of them are probably true, if we judge by the conduct of the Government troops.

The list of creditors of the bankrupt Souto shew that some English firms have suffered heavily:

THE PARAGUAYAN INVASION.

We have received the 'Reforma' and 'Plata' to the 18th.

A letter from Paysandú, 14th inst., states that Flores is in retreat, Gen. Servando Gomez pursuing him. The Brazilian blockade is very severe, and the admiral has notified the saladeristas of Sacra that he will not allow a single hide to be embarked: he also declares that if a cannon-shot be fired from Paysandú he will level the town with the dust. Servando Gomez is gone to Salto to instal Sor. Palomeque. Advices from — relate that a strong division of Paraguayan troops has passed the frontier of Corrientes, in which province and in Entre Rios the militias have been called out for the 15th inst., when a *pronunciamento* between the provinces is expected. Advices from Salto announce that Col. Gomez has ordered sentence of death against any persons communicating with the Brazilians. A rebel force under Enrique Castro is prowling about the department.

Colonel Sienra writes on the 8th inst. from Campos Texera that his son Bernardo, aged 17 years, was captured by a band of rebels under Moyano who at once murdered him. Colonel Rodriguez having recovered from his wounds set out for San José.

Coriolano Marques who was condemned to death two years ago for the murder of Camilo Rodriguez and escaped from the prison of B. Ayres a few years ago, has written from the prison of Montevideo to the 'Plata' a letter full of Christian benevolence and scriptural texts, placing himself on a par with Urquiza, Mitre and other public men.

Passengers from Florida and Maldonado announce that General Saá has scoured those departments and collected a good number of horses, Flores being by last accounts near the Capilla Farruco.

The 'Reforma' gives an account of the duel between the editors of the 'Tribuna' and 'Pueblo' in this city. The encounter came off in a quinta near Flores, the combatants being 15 paces apart, and at the 3rd shot Sor Torres received a ball in the right thigh. The seconds then challenged each other, and another duel is expected.

Colonel Muñoz commanding the militia of Cerro Largo has captured Capt. Borjes and 14 other rebels at Maciel, where Flores had left them as a corps of observation. Flores is said to be now marching on Paysandú with 800 men, the relics of his army.

The English postal agent has published a notice that he has received stamps to frank letters for England or foreign countries.

The Nianza from England to Montevideo returned to Beaumaris (Wales) on Sept. 24th, the crew refusing to proceed on the voyage: a new crew was then taken aboard.

To the Editors of the "Standard."
Salavina, Oct. 30, 1864.

Gentlemen,—

Allow me to take the liberty of asking you to forward to my address a catalogue with plans of the various machines made by Richard Garrett & Son. At the same time if you can give me any information of the machines used in the manufacture of oil I shall esteem it a great favor.

If it should happen that the prices are not marked in the catalogue perhaps you can say how I am to be informed of the same.

I am, Gentlemen,

Your obedient servant,

A. LEMELLE.

Province of Santiago del Estero.

[ED. NOTE.—We have forwarded the catalogue by post, as requested.]

THE NEW PARTIDOS.

The subdivision of the partidos in the camp appears to be undertaken in good earnest by the Government. The plan is not yet adopted, but it is prob-

able that the following subdivisions will be made.

Partido Magdalena will have the Rincon de Nuario cut off and made a new Partido.

Chascomus will lose the Rincon de Biedma, which gets its independence. Merlo dissolves partnership with Moreno and will henceforth have a Judge and Municipality of her own.

The Las Conchas territory will be cut off from Pilar.

In the west, all that sheep growing land lying between Chivilcoy and Mercedes. Name of new territory unknown.

In the north, part of San Nicolas is to be cut away between Las Hermanas and Rincon de Ramallo.

North-west. The banks of the River Salado and part of the river itself between Chivilcoy and Junin.

To the west, between Moron, the Villa Lujan and Navarro, a large tract of land, to be called Partido de San Patricio.

We for our part fail to see what benefits are likely to accrue to our friends in the camp from this subdivision of partidos. We call the attention of the Provincial Government to the necessity of sending patrols out in some parts where it is said bands of fellows are hiding in the thistles. Yesterday we recorded a daring attempt to murder Dr. Alvear's capataz in Pilar. Since then we have been told that several such cases have occurred, and that unless the Justices of Peace send out the soldiers well armed to search the thistle beds, it is more than probable robberies on a large scale will take place before the thistles fall.

CRICKET CLUB.

It is pleasing to find that the ancient game of cricket is about to be revived, and placed on a footing which it has never before enjoyed in Buenos Ayres.

The Committee have determined to go into the matter with their coats off, and are doing all in their power to render the Club popular, and to gain fresh subscribers.

Practice has been already commenced on the afternoons of Tuesdays and Fridays, and we should advise all lovers of the game to attend regularly, the more so as the trains leaving town are very convenient, arriving at Palermo in time to give about two hours playing before the last train leaves.

We are glad to find that the idea of the Pavilion has met with so much favor, and understand that already more than half the shares requisite have been subscribed for. We ourselves have become shareholders, as we think that it is a move in the right direction. We should be glad to see President Mitre and his Ministers on the ground enjoying a good game, and would guarantee that they would stand much less chance of being "stumped" there than they do in the Senate house.

On dit, that our crack players intend giving the officers of the "Bombay" an opportunity of thrashing them in a pitched battle. We should recommend our naval friends to have a care, as we understand that the balls are very well directed, and from the force with which they are discharged, would argue the presence of some Armstrong among them.

"COLONEL."

The other day we gave a description of this celebrated stallion of pure English blood, at Mr. Plowes' chacra, and about to be sold at auction by Messrs. Balbin & Plowes, the owners in Montevideo not being able on account of the civil war to carry out their purpose of improving the native breed.

As by some gentlemen, unaware of the facts, it has been reported that "Colonel" was born in the Banda Oriental (which after all would not be a great crime), we are authorized to contradict this rumor, stating that he was imported to Montevideo by the steamer "Una," Capt. Batty, brought on shore on the 15th August, the shipper in Liverpool being Mr. Alexander R. Lafone, and the pedigree being no other than the one we gave, and for the correctness of which, moreover, the necessary guarantee will be afforded.

But better than all, the horse is too well recommended by himself to require any further demonstration, that not a nobler animal has ever been introduced in the River Plate.

It was believed in the morning that patacons would go up to-day, but the supply of gold was equal to the demand, and paper money was in demand. There is a very general feeling that specie must go up, owing to the demand for exchange purposes, and also the almaceueros' bills coming due. We dislike offering opinions on such matters, but the market is in a most critical condition, and we cannot see any possibility of an improvement until satisfactory news from Europe is received. Exchange on England was a little firmer to-day, and we heard of a transaction for £30,000 sterling at 49½; on France, the rate is firm at 5.20 francs. In the wool market things are beginning to look a little better, and a firmer tone is felt. Some sales to-day were made at 95.

SAVINGS BANK.

BANK MAU AND CO.

No. 103 Calle de Cangallo, BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the great emporium of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence. The Bank of Mau and Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that most important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mau and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo, from Nine a.m. till Three p.m. on Week Days, and on Sundays and Holidays from Ten a.m. to Twelve m., for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mau and Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mau and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood.

Buenos Ayres, September 19, 1863.

P.p. Mau and Co.

WILLIAM LESLIE

BENSON'S WATCHES AND CLOCKS.
Watch and Clock Maker, by Special Appointment, to His Royal Highness The Prince of Wales.

Opinion of the London Press upon Benson's Great Clock and Watches in the Exhibition of 1862.

"A triumph of ingenuity."—Telegraph March 11 1862.

"A more splendid and exquisite piece of mechanism we have never seen."—Standard, June 17 1862.

"Some of them are of great beauty."—The English Watch-trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—Times, June 23, 1862.

"Hugged around the base of the clock were the Watches which Mr. Benson exhibited, and which were universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and will repay the trouble of an inspection."—Illustrated London News, November 9, 1862.
